

12VDC 9 OUTPUT SWITCH MODE CCTV POWER SUPPLY

Model: XC-20509

Test and measurement

To determine the current camera consumption covered by the camera:

- **First step:** you should connect the camera.
- **Second step:** remove the jumper link.
- **Third step:** set your amperemeter to Ampere DC.
- **Fourth step:** measure the Ampers between the pin ON and the COM

Specifications:

Input Voltage: AC100~120V

AC220~240V

Output current: 9 x 500mA fused outlets (7,5A Max)

Output power: 60 W

Dimensions (mm): 240 (L) x 210 (W) x 65 (H)

PS: Only for Indoor Use
